The flag that ought to be nailed to the mast of this ship of state would school all the time."

It is a lot more important for a na tion to conserve its human stock than its beef cattle or any other kind o

A pointed and concrete instance o our crime against the children is given in an article in the Survey by Edward N. Clopper, northern secretary of the national child labor committee. He tells the story of the Colorado

beeters," meaning those who labor in the beet fields. In 1915 Colorado produced more beet sugar than any other state—about a quarter of a million tons. Before the people of that state begin jubilations

over this triumph, however, they should ask themselves whether these gains are clean.

Any dollar looks god, but of a dollar it can be said what Lowell said of a book—that the best one is one "hon-

book—that the best one is one "hon-stly come by."

And the local school superintendents stimate that a part of this economic upremacy is due to the hard labor of 0000 girls and boys from six to fifeen years of age. Every dollar of profits due to labor children is a dirty dollar

The state owes every child a training. There is no escape from this obligation. It is a first lien on the com-And this debt runs toward ever

child, no matter what its parentage Education should not be considered a matter of family pride or privilege, but as a matter of communal necessity.

Every untrained child is a menace to society. He is a potential enemy.

Every one of these little ones that is toiling in the beet fields in the not

is to lifting in the beet neids in the not sun instead of preparing his mind by study and his body by normal play for efficient citizenship is an element of national weakness.

Every thousand children in school is contralled to a bettleship or a sociolated to a bettleship or a bettlesh equivalent to a battleship or a regi-ment in the account books of national

'preparedness."
These 5,000 child "beeters" are equal five battleships sunk, five forts pul verized, five towns sacked.

The investigations of the child labor committee show that the work of these immature hands amounts only to about 7 per cent of the total field work, and consequently that "if the labor of children under fourteen years of age were eliminated the industry would not suffer."

Most of them are children of Mexicans, Japanese, Italians, Austrians. verized, five towns sacked.

cans. Japanese, Italians, Austrians, Russians, Slovaks and other foreigners-Russians, Slovaks and other foreigners— the very ones who ought to be in the crucible of the public schools, to be transformed into Americans.

For the question of what immigrants we are to allow into America is not so

important as what we are going to do with them and their children when In several towns of the beet section.
